Product Specification 2-Ethylhexylpalmitate, vegetable

CAS No. : 29806-73-3

Chemical name :	2-Ethylhexylpalmitate, vegetable
chemical name :	Hexadecanoic acid, 2-ethylhexyl ester
Appearance :	light yellow liquid
acid value :	max 1 mg KOH / g
iodine value :	max 1 g I ₂ / 100 g
Density :	0,854
Packing :	drums
Einecs :	249-862-1

CAS No. :	29806-73-3
Synonym :	palmoil 2-ethylhexyl esters
General informations :	2-Ethylhexyl palmitate, vegetable is insoluble in water. Melting point < 2°C Boiling point >300°C, decomposition possible Flash point 210°C Ethylhexyl palmitate is a branched saturated fatty acid ester derived from 2-ethylhexanol and palmitic acid.
Application :	2-Ethylhexylpalmitate, vegetable is used by SysKem Chemie in its own and customer-specific formulations. These are formulations used as solvents, carriers, pigment wetting agents, fragrances and plasticizers and other products. Other typical ingredients of our compounds are other fatty acid esters or anionic surfactants and glycol ethers, such as butyl diglycol, laureth 7, etc.
Hazard Statements :	According to the notifications provided by companies to ECHA in REACH registrations of di octyl palmitate, no hazards have been classified.
Product categories :	ester,
