Product Specification Dipropylene glycol dimethyl ether CAS No. : 111109-77-4

Chemical name : Dipropylene glycol dimethyl ether

Appearance : clear liquid

assay : min 99 %

colour : max 10 APHA

Moisture : max 0,05 %

Density : 0,900-0,910

Packing : drums

Einecs :	404-640-5
CAS No. :	111109-77-4
WGK :	1
Other :	Flash point : 65 °C
Synonym :	di methoxy dipropylenglykol, DMM, DPDM

General informations :

- pH value neutral
- Melting point/freezing point -80 °C
- Initial boiling point approx. 175 °C
- Flash point 65 °C
- Water solubility 526 g/l (20 °C)

Our service includes filling dipropylene glycol dimethyl ether into customized containers for our customers. These containers range from 100 ml bottles to canisters with 5-25 liters capacity and 1000 liter IBCs.

With our support, you save both time and money. We take over the mixing of dipropylene glycol dimethyl ether according to your individual formulations and then fill it into the containers you specify.

Application : Dipropylene glycol dimethyl ether is a versatile chemical for various technical purposes.

It is used in various applications:

As a solvent for paints, varnishes, coatings and for the production of adhesives.

For degreasing in cleaning products.

In dye production for dyes and pigments.

SysKem Chemie uses dipropylene glycol dimethyl ether as a base material for the production of customized formulas.

If you are interested in formulations with this substance, please contact us.

Product categories : ethers,
