Product Specification Phosphoric acid, 2-ethylhexyl ester, ethoxilated 9 EO CAS No. : 9046-01-9

| | |
|------------------------|-------------------------------------------------------|
| Chemical name : | Phosphoric acid, 2-ethylhexyl ester, ethoxilated 9 EO |
| chemical name : | POE (9) Tridecyl Ether Phosphate |
| Appearance : | colourless liquid |
| assay : | min 99 % |
| Moisture : | max 1% |
| Density : | 1,08 bei 20°C |
| Packing : | drums, IBC, Isotank |
| ADR : | KI 8 Verpackungsgruppe III (E) |

| | |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| UN-No. : | 3265 |
| CAS No. : | 9046-01-9 |
| WGK : | 2 |
| Synonym : | polyoxyethylene tridecyl ether phosphate; Tridecylethoxylatphosphat; Poly(oxy-1, 2-ethanediyl), .alpha.-tridecyl-.omega.-hydroxy-, phosphate; |
| General informations : | <p>Tridecyl Ether Phosphate, ethoxylated, 9EO is partially soluble in water and readily soluble in methanol and acetone.</p> <p>Tridecyl Ether Phosphate, ethoxylated, 9EO reduces the surface tension of liquids in which it is dissolved. Thanks to it, any liquid (usually water) has a greater wetting ability, which increases its ability to approach the solid body as closely as possible. This is very important for many applications of surfactants, especially in cleaning processes.</p> |
| Application : | Product for use in metalworking, textile, and hard-surface cleaner formulations. |
| Label : | GHS05 |
| Product categories : | , |
