## Product Specification SysKem Antifoam LP 200

**Chemical name :** SysKem Antifoam LP 200

**chemical name :** Defoaming agent

**Appearance :** yellowish liquid

**assay :** min 95 %

**colour :** max. 100 Pt/Co

**Density :** 0,87

**Packing :** ibc

**WGK :** 1

**General informations :**

Defoamer LP200 belongs to the group of nonionic surfactants, type alkoxyated fatty alcohols.

Defoamer LP200 forms cloudy solutions in water, but in solutions with butyl glycol it is clear up to about 40°C at a concentration of the active substance of 16.7%.

**Application :**

Defoamer LP200 has high wetting capability and can increase the capillarity of the treated materials.

Defoamer LP200 is used for foam control due to its low foaming tendency.

Defoamer LP200 is compatible with solvents, other chelating agents, and alkalis.

**Product categories :**

,
