## Product Specification contract manufacturing of lubricant additives

<b>Chemical name :</b>	contract manufacturing of lubricant additives
<b>chemical name :</b>	mixing of chemicals, base oils and additives
<b>Einecs :</b>	Gemisch
<b>Synonym :</b>	Mischung, Lohnfertigung,
<b>General informations :</b>	We blend lubricant additives on a contract basis according to your specifications and reliably fill them into IBCs, canisters, or other containers while ensuring compliance with the specified net weights. In addition, we offer labeling and order picking, including palletizing.

**Application :** The blending is carried out manually or via our automatic mixing system. Additivation or emulsification with components specified by you can, by prior arrangement, be carried out before or during the mixing process according to your specifications. The labels can be produced by us according to your specifications.

**Hazard Statements :** Unfortunately, we can only mix hazardous substances or strongly odorous liquids to a limited extent. Before confirming the order, we require a safety data sheet for the raw materials to be used. If such an SDS is not available, our hazardous goods officer can assist you in preparing the safety data sheets.

**Product categories :** SERVICES, tolling manufacturing
