Product Specification contract repackaging of fats, pastes, gels

Chemical name :	contract repackaging of fats, pastes, gels
chemical name :	filling from from IBCs or drums into smaller containers according to your specifications
Synonym :	Kleinabfüllung, Liquid logistic, Fettabfüllung, Abfüllung
General informations :	We repackage fats, pastes, gels, etc. from IBCs or drums into smaller containers according to your specifications, reliably complying with prescribed net weights. In addition, we offer labeling and picking, including palletizing. Mixing different components before filling is possible depending on the product.

Application : Contract filling is carried out using semi-automatic filling systems, but can also be done manually if required. A mixture of several components (contract manufacturing) can be carried out before or during filling according to your specifications. We can also design the labels according to your specifications.

Hazard Statements : Unfortunately, we cannot fill dangerous goods with a flash point below 40°C. Before filling, we require a safety data sheet and a sample of the products to be filled. If you do not have such a safety data sheet, our dangerous goods officer can assist you in preparing the safety data sheets.

Product categories : SERVICES, repacking services
