Product Specification filling of dicarboxylic acids in small bags

Chemical name :	filling of dicarboxylic acids in small bags
chemical name :	repacking of solid chemicals
Appearance :	colourless to yellowish liquid
Packing :	drums
Synonym :	Abfüllung, Lohnabfüllung, Kommissionierung, Verpackungsänderung

General informations :

We are your contract filler for carboxylic acids. We fill your carboxylic acids (adipic acid, sebacic acid, isophthalic acid, etc.) from big bags, sacks, or drums according to your specifications. We place the greatest importance on complying with the specified net weights. In addition, we offer labeling, order picking, and palletizing of your products.

Our services at a glance:

- Contract filling of carboxylic acids
- Compliance with specified net weights
- Labeling
- Order picking
- Palletizing

Contact us today to learn more about our services or to discuss your individual requirements.

Application :

Filling can be done manually or semi-automatically. In manual filling, the product is filled into containers by hand. In semi-automatic filling, the product is filled into containers using a machine.

Labels can be provided by you or created by us according to your specifications. If you provide labels, you must ensure that they comply with legal requirements. If we create labels for you, we will follow your specifications.

Billing can be based on quantity, unit of measure, or in accordance with an individual agreement.

Hazard Statements :

Before filling, we require a safety data sheet for the products to be filled. If such an SDS is not available, a dangerous goods officer can assist you in preparing the safety data sheets. We would be happy to provide you with a contact for this.

Product categories : SERVICES, repacking services
