Packing :	drums
Synonym :	Abfüllung, Lohnabfüllung, Kommissionierung, Verpackungsänderung

General informations :	We take care of filling defoamers from tank trucks, IBCs, or drums for you. We fill your products according to your specifications and ensure that the specified net weights are maintained. In addition, we offer labeling, picking, and palletizing of your products. Here are some additional details about our services: Filling: We fill your products from tank trucks, IBCs, or drums into the containers you require. Labeling: We label your products according to your specifications and ensure precise identification. Picking: We handle the picking of your products and make sure they are correctly packed and palletized. Palletizing: We palletize your products and ensure safe transport.
Application :	Filling is carried out manually or via our automatic filling system. Self-adhesive labels can be supplied by you (preferably on rolls) or produced by us according to your specifications. Billing is based on quantity, unit of measure, or as agreed.
Hazard Statements :	Before filling, we request a safety data sheet for the products to be filled. If such a safety data sheet is not available, our dangerous goods officer can assist you in preparing the safety data sheets.
Product categories :	SERVICES,
