Product Specification sodium laureth sulfate 70% CAS No. : 68891-38-3 / 9004-82-4

Chemical name :	sodium laureth sulfate 70%
chemical name :	fatty alcohols, ethoxilated, sulfated, sodium salt, solution
Appearance :	transparent slightly yellow solid
assay :	68-72 %
other :	NaSO ₄ max 1 %, NaCl max 0,1 %
Moisture :	ca 30 %
Density :	1,11 (20%)

Packing :	drums
Einecs :	500-234-8
CAS No. :	68891-38-3 / 9004-82-4
WGK :	1
Other :	PH 10% : 7 -9, colour : max 50 Hazen (25% in H2O)
Synonym :	sodiumlauryl/myristylether(2)sulfate, SLES 70
General informations :	<p>Sodium Laureth Sulfate 70% is a versatile and effective surfactant, known for its excellent foaming and cleansing properties. With its mild yet powerful cleaning performance, SLES is an essential ingredient in a wide range of personal care and cleaning product formulations. It is commonly used in shampoos, shower gels, liquid soaps, as well as industrial cleaning agents.</p> <p>We fill Sodium Laureth Sulfate into various container sizes to suit your requirements—from small canisters to IBC containers. Our goal is to provide you with the product in the optimal packaging for your production or distribution processes.</p>
Application :	<p>In addition to pure filling, we also offer contract manufacturing services. This includes the professional blending of raw materials, such as sodium laureth sulfate 70%, according to your recipes and specifications.</p> <p>Especially for products such as cleaning agents, we implement your formulations precisely and in high quality.</p> <p>We offer you the opportunity to have both large batches and smaller quantities starting at 500 kg manufactured by us economically and efficiently.</p> <p>Our processes are certified to the highest quality standards. This ensures that you receive a product that not only meets the technical requirements, but also complies with strict quality and safety regulations.</p>

Hazard Statements : Sodium lauryl sulfate can irritate the skin at higher concentrations and cause dryness. Contact with the eyes should be avoided.

Label : GHS05
